SIR:

A Notice to File Corrected Application Papers was mailed in connection with the above-referenced application on September 14, 2001, (copy attached) stating that a Substitute Specification was required because the specification, claims or Abstract pages were not typewritten or mechanically printed in permanently dark ink on one side, as required by 37 C.F.R. §1.52(a) and (b). Applicant assumes this objection was due to the handwritten changes made by the inventor on page 5 of the original application. The Substitute Specification normally does not include the claims, however, a complete

substitute application is submitted herewith wherein these changes have been incorporated in mechanically printed form in compliance with 37 C.F.R §1.52(a) and (b).
